Spice Village Resort, Thekkady - Premium The Art of Nature

Spice village for us is a work of nature as much as it is a lofty expression of the imagination. We conceived the resort as a village and approached its building the way you would a village - with local materials, native artisans, mountain spirit and traditional wisdom in its creation. Though traditional in its conception, this is a 'village' that offers you all the comforts of a city minus the noise, pollution and other urban ills that you can do without. Our interaction with the ecology of these hills is symbiotic, influenced by the native people of these parts who have lived in harmony with their surroundings for generations. They taught us about self-sustaining systems and also steward our organic gardens that put fresh vegetables, fruits and spices on your tables every day.
